

NMF-230FY-T

NAOMOTO MULTI FINISHER

Features

- ▶ Carousel system innovated by Naomoto ensures higher productivity than other single machines. This is because the NMF-21P can finish a pant while operator is loading a next pant.
- ▶ Not only jeans, cotton pants but also some elastic pants can be finished without excessive expansion because of an adjustment device for both waist and length size.
- ▶ Since steam and required high temperature can be kept in the finishing room, the finishing results are ensured to be excellent.
