

NP-110

NP-110 for small utility operation

- This energy and space saving utility machine makes layout changes in the sewing process simple.

Individual functions of pressing time, pre-steam, steam and vacuum result in high quality and consistent finishing.

(Remarks) NP-110VB = with vacuum and boiler,
NP-110V = with vacuum, but without boiler

The picture enlarges when you click it.

NP-110

NP-110	
Voltage	
220V 1ph/3ph 50/60Hz	
Electrical	Boiler (NP-110VBonly)
	Head heater
	Fan motor
	Water feeding pump moto for boiler (NP-110VB only)
Steam pressure	
(NP-110VB)1kg/cm ²	
(NP-110V) 5kg/cm ²	
Steam consumption	
2.3kg/Hr	
Air pressure	
5kg/cm ²	
Air connection	
10mm dia.	
Machine dimension (installation)	
(VB)W890xD855xH1600mm	
(V)W790xD855xH1600mm	
Steam connection	
1/2"	
Control	
Microprocessor
